### Spinal Motion Restriction | 18in x 24in

\$ 20

\$

A step-by-step approach based on research from ACS, ACEP, and NAEMSP. Includes 2 posters: Assessment & Application.

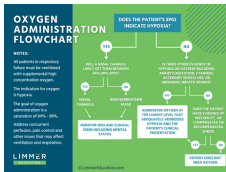

### 4 Steps for Evaluating an NREMT Question | 18in x 24in

\$ 10

\$

A 4-step process to find key details that determine what the best answer is.

### Oxygen Administration Flowchart | 24in x 18in

\$ 10

\$

"How much oxygen do I give?" This flow chart makes it easier to answer that question.

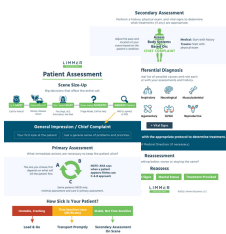

### Guiding Principles of Patient Assessment | 18in x 24in

\$ 10

\$

Teach students how to think critically about patient assessment, rather than just memorizing a skill sheet.

### Patient Assessment Flow Chart | 18in x 24in

\$ 20

\$

A flow chart for a more efficient and thought-based process. Includes 2 posters: Primary & Secondary Assessment.

### Taking Accurate Vital Signs | 18in x 24in

\$ 20

\$

Vital signs are a critical skill. This 2-page set includes detailed information on pulse, respirations, BP, pupils, skin, and oxygen saturation.
