

LIMMER REMEDICATION FOR EMT

The most comprehensive NREMT
remediation and exam prep available.

Available at **LCReady**

20 hours of recorded
study sessions

Diagnostic exams pinpoint
strengths and weaknesses

Covers each section of
EMT class curriculum

The Limmer Education EMT Remediation program reviews core components of the EMT scope of practice and meets the requirements of the 20 hour remediation program required by the NREMT after a third unsuccessful attempt.

*This remediation program does not satisfy NCCP requirements as a refresher.

You'll spend 10 sessions with Limmer Education Chief Learning Officer and textbook author Dan Limmer to ensure your success on the NREMT and beyond.

WHO WILL IT BENEFIT?

Those who waited a bit too long to take the NREMT exam and would like a solid review.

Those who have tried the NREMT before but were unsuccessful.

Those currently enrolled in an EMT class who want additional help or remediation to succeed in class and before taking the NREMT.

HOW DOES IT WORK?

Each 2-hour session begins with an overview and case study.

Content is engaging, conversational and relevant to your practice.

The session will then cover important terms and concepts for each topic using a variety of dynamic methods including critical thinking activities and detailed drawings.

It will conclude with NREMT-style review questions to help you better understand and succeed on the exam.

Also included:

Diagnostic exams to help you identify your strengths and weaknesses.

Our popular 2 hour NREMT preparation video, which is jam-packed with in-depth NREMT-style review questions, answers and tips you can't find anywhere else.
