

Stages of Grieving Over The NREMT Exam

1 | DENIAL

The exam isn't really like that. I had a 91% average in class!

3 | BARGAINING

I talked to three paramedics I know and they say these questions are nothing like the NREMT. It can't be that bad.

5 | ACCEPTANCE

OK. I'm going to take a few more practice tests and study some stuff I found I didn't know.

2 | ANGER

This is bull\$#@! Why do I have to learn how to take their test? It is nothing like the street or my class.

4 | DEPRESSION

I don't have a friggin' snowball's chance in hell of passing this test. Was I even awake in class?
