

Review

Our Review Series

- Teaches students to better read and understand the exam questions.
- Improves their thinking and technical skills.
- Helps them master clinical concepts.

Challenge

Our Challenge Apps

- Provide extra practice, insights, and confidence.
- Up interpretation skills in the classroom and the field.
- Are ideal for paramedics, nurses, med students, and physicians.

Pass

Our Pass Apps

- Provide critical exam study tools, designed in collaboration with Bill Brown, former NREMT Director.
- Increases your students chances of passing, the first time.
- Uses Predictive Scoring to help determine student's preparedness.

Audio

Our Audio Series

- Makes for an excellent study tool for students on the go.
- Available version for EMT, AEMT, and Pathophysiology.
- Covers a wide range of material relevant to your student's goals.

OUR MISSION

A better way to pass the NREMT.

Limmer Education helps students pass the NREMT with high quality, clinically accurate, and educationally sound products written by leading EMS educators.

OUR PRODUCTS

Modern technology, paired with cutting edge concepts.

Critical thinking, pattern recognition, and pathophysiology are at the heart of our products. Relevant and forward thinking educational concepts make our apps an integral part of EMS classrooms, NREMT test prep workshops, and agencies all over the world.

Our test prep apps cover the spectrum of EMS, Allied Health, and health professions, matching your student's lifestyle.

Apps specializing in:

EMT, AEMT, Paramedic, Allied Health, and Nursing.

IN THE CLASSROOM

Order

We provide multiple options and custom solutions to match your needs. Free course set up in your account and ready licence codes gets your classroom ready to go in a flash.

Implement

Set your students up for success with insightful study cards, topical practice exams, and diagnostic scoring to test NREMT readiness.

Monitor

Keep track of both individual student progress and the entire class with simple, straightforward reports.

CUSTOM SOLUTIONS

We understand that all classrooms are different...

and that you might need a more custom solution. We would love to discuss different ways we can help make your classrooms more dynamic, engaging, and successful.

ABOUT US

We're an education company formed out of a passion for EMS and creative learning—

with a network of contributors, including national EMS educators, leading ECG experts, and the former Executive Director of the National Registry.

Since 2009, Limmer Education has published more than 20 apps and study tools for EMTs, Paramedics, Nurses, and Allied Health. The modern EMS classroom requires modern solutions, so we are continuously developing tools for educators, using cutting edge technology and innovative teaching methods.
